## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-15 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over USP'332.

The amendments and remarks filled by applicants on July 16,2008 have been fully considered. Applicants have amended claims and have argued that the prior art does not teach the heating and impregnation of the veneer element. The examiner respectfully disagrees. The prior art reference teaches the heating of the veneer that removes water from veneer ( heating of the surface also removes water from cross section of veneer). Furthermore, the prior art impregnates that veneer with fire retardant compounds but also with a polymer. Impregnation with polymer in the prior art is inadvertent. It is also pointed out that applicants claims do not in any way preclude additional steps, processes or structural elements that may be included. Claims remain unpatentable in view of the above rejections.
